THE IOT ACADEMY

Placement Report

Placement is the culmination of academic learning, offering students opportunities to embark on their professional journeys. It connects qualified candidates with organizations, fostering growth, innovation, and mutual success.

About The IoT Academy

The IoT Academy, established in 2017 is a fast emerging company imparting quality programs for skills training, internship and guidance in cutting edge technologies like Data Science, Machine Learning, Artificial Intelligence, Internet of Things, Embedded Systems & many more and focused on helping people develop the skills they need to thrive in the rapidly growing digital economy. The IoT Academy has collaborated with various premier institutes e.g. E&ICT Academy, IIT-Roorkee, IIT-Guwahati and IIT-Kanpur for Advance Certification courses to provide outcome-centric solutions to help them achieve their professional goals

- **400+ Hiring Partners**
- **8+ Years Of Excellence**
- **30,000+ Learners**
- **81% Happy Outcomes**
- **81% Salary Hike**

Roadmap of Placement

On Completion of the Course Module,
Eligible Candidate Go Through These Steps

Minimum Requirements:

- **75% Attendance**
- **75% Assignment Completion.**

1. Placement Eligibility Test
2. Technical Eligibility Interview
3. Profiling Of Selected Candidates
4. Profiling Of Selected Candidates
5. Selected Resumes Are Sent To Placement Team
6. Candidates Are Given Mock Interview And Soft Skill Training
7. Placement Team Helps In Onboarding Of Placed Students

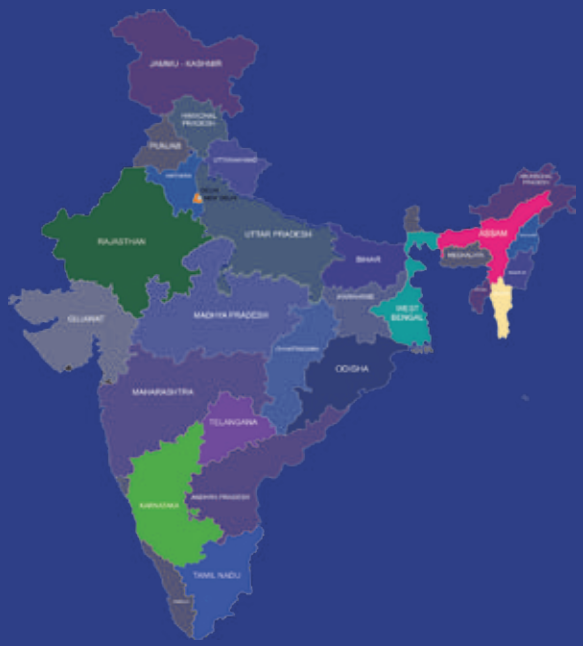

Placement Statistics

- **1290+** Students Placed
- **93%** Placement Rate
- **40 LPA** Highest Salary
- **16 LPA** Minimum Salary
- **75%** Average Hike

Alumni Distribution

With a strong presence across multiple industries and regions, our graduates are thriving in leading organizations worldwide. Here's a glimpse of where our alumni have made their mark

22%	Delhi NCR
18%	Karnataka
14%	Telangana
13%	Assam

What Our Top Learner's Say About Us

Saurabh Bhatnagar
Associate Vice President

I'm truly grateful for my learning journey with The IoT Academy through the Data Science & Machine Learning program. The program offered a strong balance of conceptual clarity and hands-on experience, equipping me with industry-relevant skills in data science, machine learning, and applied analytics.

I sincerely thank my mentor for his structured guidance, real-world insights, and constant encouragement, which helped me confidently bridge theory and application.

Satyam
I&F Decision Practitioner
Senior Analyst

The course covered both foundational and advanced topics, making it suitable for learners at any level. The trainers were highly skilled, approachable, and supportive, always ready to address doubts. The academy fosters a collaborative learning culture, which made it easier to tackle challenging concepts and doubts.

Ravi Teja
Pricing Analyst

I am excited to have successfully completed the Data Science Certification Course from The IoT Academy. The program provided me with a solid foundation in data analysis, machine learning, and Python, along with practical experience through hands-on projects and a capstone project that allowed me to apply my skills to real-world challenges. This experience has empowered me to make data-driven decisions and contribute more effectively in my new job role.

Dr. Hira Zaheer
Assistant Professor of Mathematics

I wanted to express my gratitude for an amazing educational experience. The courses were comprehensive, the lecturers were talented, and the practical projects were insightful. The interactive elements and community support were a great value boost. Thank you for your kind hospitality and fascinating IoT experience.

Dr. Anil Kumar Singh
Consultant Cardiology

It is truly impressive to see how much this program offers in terms of learning opportunities. In terms of my personal interest in learning processes, this course aligns perfectly with what I'm interested in.
The journey has been incredibly positive, enriching, and insightful.

Harshada Bhalchandra

I had a wonderful learning experience during this course. The sessions were well-structured, interactive, and provided a perfect balance of theory and practical knowledge. Our faculty, Arihant Sir, explained every concept in a clear and detailed manner, making even complex topics easy to understand.

This course has truly enhanced my technical skills and boosted my confidence to apply my knowledge in real-world projects. I'm grateful to E&ICT Academy, IIT Guwahati, and The IoT Academy team for giving me this valuable learning opportunity.

Thank you for this enriching experience!

Ritika Chetri
Consultant- M&E and Data Analyst

I came across The IoT Academy. I am so grateful I found them. Because the content was very detailed and sequentially programmed. While I was in the job and learning from them, I realized there were pieces of data that I could evaluate with much better insights. I am so thankful to my trainer for being so patient with all the topics and explaining things again and again if anyone of us didn't understand them.

Dharmendra Kumar
Trainee-IoT

I really enjoyed the IoT Embedded Systems course. The teachers were very friendly and explained everything in a way that was easy to understand. They helped us with all our doubts and made learning fun.
The support team also did a great job by giving us study materials and updates on time. I feel much more confident now and ready to use these skills in my career.

Mahendra Kahar
Associate Manager
and Delivery Lead at MNC

Pursuing a course with IoT and EICT Academy at IIT Guwahati for essential tech skills in workload management and project tracking. Clear objectives, well-organized material, and authoritative communication in lectures. Engaging in class presentations with novel examples boosts interest. The IoT team fosters constructive interaction. Excited to enhance my managerial capabilities.

Varnit Jain
Lead Engineer

The knowledge I've gained at The IoT Academy has been transformative. I've successfully transitioned from the core automobile field to the exciting world of AI/ML. This would not have been possible without the exceptional teaching and support I received.

Avinash Rao

The content was well-structured and highly relevant to current industry needs, offering practical insights that were immediately applicable. The teaching methods were engaging, and the supplementary materials were clear and comprehensive, which greatly enhanced the learning experience. The instructors were extremely supportive and always available to clarify doubts and provide guidance, making the learning process seamless. To future learners, I recommend staying focused on the sessions and participating actively; consistency and dedication will help you gain the most from this course. Overall, it was an enriching experience.

Dr. Anil Kumar Singh
Consultant Cardiology

It is truly impressive to see how much this program offers in terms of learning opportunities. In terms of my personal interest in learning processes, this course aligns perfectly with what I'm interested in.
The journey has been incredibly positive, enriching, and insightful.

Anushi Mittal
Risk Management Analyst

The support and assistance provided by the Placement Department throughout the duration of the program were exemplary. The team demonstrated a genuine commitment to assisting students in their career endeavors, providing guidance, resources, and networking opportunities to enhance our job search and placement prospects.

Hemant Raj
Assistant Engineer R&D

I wanted to express my gratitude for an amazing educational experience. The courses were comprehensive, the lecturers were talented, and the practical projects were insightful. The interactive elements and community support were a great value boost. Thank you for your kind hospitality and fascinating IoT experience.

Bhaskarjyoti Goswami
Executive, IT CSV

It is a well-designed program that covers a wide range of topics, including Statistical Thinking, Data Analysis & Visualization, Artificial Intelligence & Machine Learning, Python, Tensor Flow, Neural Networks & Deep Learning, Speech Recognition, IoT, and more

Mohan Trivedi
Project Manager

I have learned new skills like Machine Learning Computer vision and IOT. Training Sessions were fully practical and hands-on experience on real life projects. It helped me implement new skills in my current organization.
